Attachment to Advisory Action

The new issues are newly inserted extensive amendments to claim 1 including insertion of additional active steps. Clearly, the newly inserted steps and structural elements require further consideration and/or search. The new issues are also introduction of new claims 54-64 that also require further consideration and/or search. The issue of new matter might also exist and, therefore, requires further consideration.

Applicants arguments filed on 6/12/2009 have been considered but they are persuasive because they are mostly based and/or directed to the newly inserted limitations.
